# A Perspective on Leadership Linking University Teaching, Research and Administration

**Dr. Steven E. Franklin** (former Head, Department of Geography, University of Calgary) was installed in June 2009 as Trent University's 10th President. His research specializes in the application of satellite and aerial remote sensing in the environmental science and management. President Franklin recently released his new book, "Remote Sensing for Biodiversity and Wildlife Management Synthesis and Applications", which provides fundamental information on and practical applications of remote sensing technologies in wildlife management, habitat studies, and biodiversity assessment and monitoring.

**Friday, December 10**  
**10:00-11:00 AM**  
**Earth Science Bldg. 443**

The Department of  
**GEOGRAPHY**
