SCIE 507, W19
Emerging Technologies, Entrepreneurial Thinking &
Disruptive Innovation in Geoscience

... an industry-oriented multi-disciplinary capstone experience

Science (SCIE) 507: Weekly lectures, seminars, tutorials and/or research project meetings, leading
to a focused examination of a topic from interdisciplinary perspective.

Co-Organizers & Co-Instructors:

• David Eaton (Geoscience)
• Mario Costa Sousa (Computer Science)

✓ Winter 2019, seminar format, project-oriented
✓ Open to undergrads (4th year) and grads from Geoscience, Computer Science, and Business.
✓ Industry partners mentoring the students and their corresponding projects.
✓ Collaboration with Haskayne School of Business
✓ Showcases and workshops so students can present their projects by the end of the term.
