

# Alex Lee

**Major:** Cellular, Molecular, and Microbial Biology

**Minor:** Japanese

**Year:** 3<sup>rd</sup>

**Interests:** Piano, movies (Studio Ghibli, Pixar, and various other favourites), music (esp. film scores), learning new languages, exploring cities and photography

**To-do list in Japan:** Visit Ghibli museum, get lost in the middle of the city, 日本語が上手になる、try as much new food as possible, さくらを見る

**Random ironic fact:** Excited to go to Japan and try new Japanese foods, but I am allergic to miso...

**Currently taking:** JPNS 333 with アップル先生

I'm currently finishing up my third year at the U of C, and I hope to graduate next year (possibly after the fall semester). After that, I'm not sure what I'll be doing, though I'm contemplating going to study film/animation and chase a dream of becoming a filmmaker. For now, though, I'm extremely excited to be going to Japan, and I can't wait to see you all in May on the other side of the world. Looking forward to some fun times (if anyone's interested in Ghibli museum, let's organize something), learning more Japanese, and getting to know you all! All the best this semester, and hope to see you soon!
