

## Joshua (JP) Ang

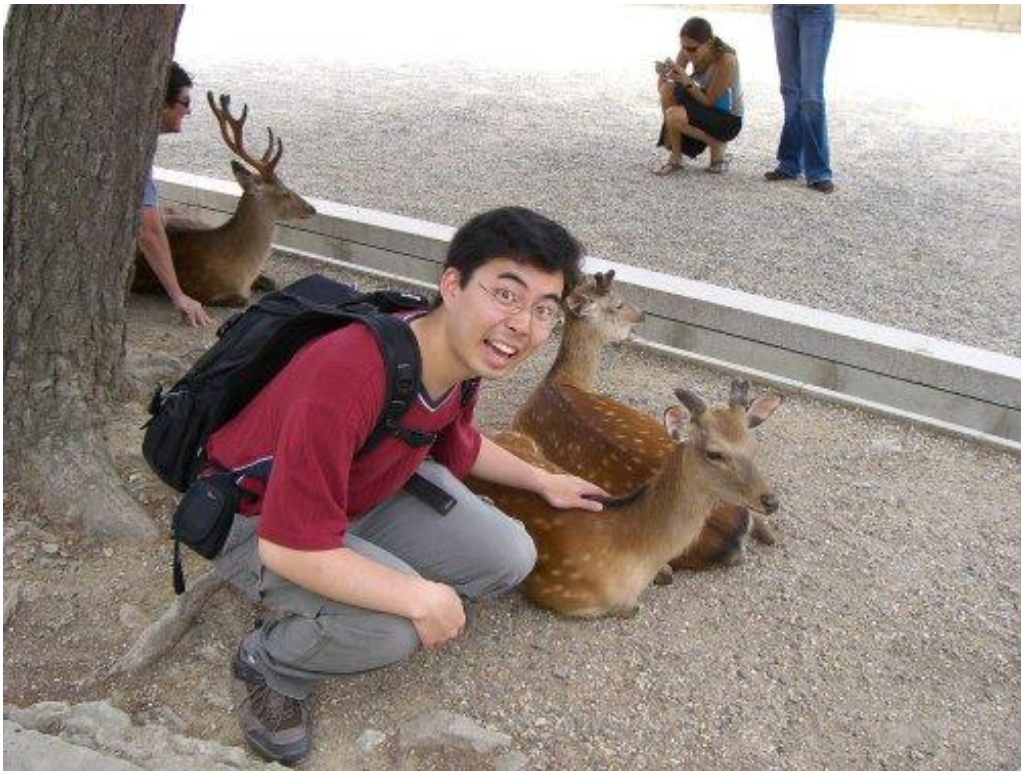

**Age:** 23

**Major:** Electrical Engineering and Linguistics/Language (Japanese Concentration)

**About me:** Hey! I'm Joshua, but people usually call me JP. I've been bouncing around with what I want to do after graduation for a while now, and I changed my second major from Economics to Linguistics in my third year (which is why I am still as of yet not graduated). I've actually been to Japan once before in my life, when I did my Engineering internship for Sanyo Electric in Osaka. I'm a Christian, and one day I'd like to go to a Bible college in Anaheim! In my future I'd love to be able to do research in a hybrid field of Linguistics and Engineering. Like making a universal translator or some natural speech recognition thing that works really well or something =)

In Japan I'd love to go visit some of the sites in Tokyo that I wasn't able to really take a good look at (visited there 3 times but only once for sightseeing, the other times were for shows/exhibitions and didn't involve much exploring). The food as I recall was absolutely amazing, and I can't wait to go back in there and try more things!

よろしくお願ひします！ Looking forward to an awesome trip with all of you!

At Miyajima Island chilling with the deer!
